EDUCATION

Bachelor of Computer
Surabaya State University
2019 - 2023

Informatics Engineering Courses
Tun Hussein Onn University
March 2021 - Nov 2021

Android Dev Courses
Binar Academy
Feb 2022 - Jul 2022

EXPERTISE

- PHP
- CSS
- Java Script
- Codeigniter
- WordPress

LANGUAGE

- Indonesia
- English

PROFILE

I'm a fresh graduate in **Computer Science** with a strong passion for web development. My journey into the tech world began with a deep curiosity about how websites are built. During my studies and internships, I honed my skills in **HTML, CSS, JavaScript,** and frameworks that implement **MVC** such as **Codeigniter**, gaining a solid foundation in both **front-end** and **back-end** development. Recently, I built an **e-commerce** website called FelineFits Co., where I created a fully functional online store for cat clothing and accessories using **WordPress** and the **Woostify** theme.

WORK EXPERIENCE

Amalia House of Muslimah   **May 2023 – March 2024**
Fullstack Developer

- Designed and implemented an information system with f**ive distinct user roles**.
- Build **features** such as user management, event organization, assessment reporting, class management, and **QR-based attendance** tracking.
- Integrated **data mining** capabilities using the Decision Tree Algorithm **(DTRee)** for student classification.

PT Disty Teknologi Indonesia   **Aug 2022 - Dec 2020**
Web Developer

- Participated in an internship and working with the wider **development team**
- Develop **Front-End** for the website responsible for creating **user-friendl**y interfaces
- Gained significant experience in **UI design**, enhancing my ability to create visually appealing and functional web layouts.

E-commerce Wordpress   **July 2024**
FelineFits Co.

- Build an **e-commerce** website using **WordPress** and **Woostify** theme also some **plugins** to perfect the website
